## **WARRANTY STATEMENT**

### medical application

# **ResQ-plast**

We, G&G Trading International B.V., manufacturer of SPITA ResQ-plast self-sticking plaster/bandage, declare:

- 1) SPITA ResQ-plast is manufactured in a plant certified for the manufacturing of medical products according to ISO13485:2003 standards.
- 2) All manufacturing processes are ISO9001:2008 certified.
- 3) All regulations and protocols for hygienic production are strictly followed.
- 4) The plant meets the SA8000 standards for health & safety, labour, etc.
- 5) Plant and manufacturing processes are regularly monitored under strict control of the USA Food & Drug Administration (FDA). Checks are also based on the requirements set for the manufacturing of special bandages for military use.
- 6) SPITA ResQ-plast meets and exceeds all requirements set for (self-sticking) bandages for admission on the European market (CE-marking on all packaging).
- 7) SPITA ResQ-plast is available with different compositions depending on type of skin, suffering of certain allergies, etc. (see technical datasheet for more details)
- 8) All SPITA ResQ-plast products are FREE of LATEX in order to prevent users from potential health risks.

We, G&G Trading International B.V., represented by Managing Director Goosen Riphagen, states that all SPITA ResQ-plast products (ResQ-plast Professional, ResQ-plast Family, ResQ-plast Sensitive, ResQ-plast Sports and ResQ-plast Veterinarian) comply to the highest quality standards.

SPITA ResQ-plast meets and exceeds all the requirements set by the standard committee for C E-marking. All SPITA ResQ-plast products carry the C E-mark on the printed material.

All published data and properties are based on test results complying with international standards and regularly checked by international licensed companies (UL/SGS).

International standards are used in all our technical documents and product specifications.

Harderwijk, May 24<sup>th</sup>, 2016

Goosen Riphagen  
Managing Director
